The Proven Kind Are Like McArthur, They Shall Return

Remember new math? Whatever happened to it? The same thing that many other unproven, untried ideas some theorist was able to promote because it was a change.

Remember the Shorthorns? Whatever happened to them? They're still in the cowman's pastures, mothering their calves, and let me emphasize the word mothering. These cows also conceive regularly, calve with relative ease, milk well, and wean off a money making calf. Because of this, the cowman is like those that returned to the old math, he is returning to the kind of beef beast the Shorthorn offer.

Now, don't get the idea the breeders haven't improved the Shorthorn over the years, they have. They've stretched them out, cleaned them up, and you can find more and more good polled ones. They can compete, too, as proven at the recent Indiana State Fair where a Shorthorn was the reserve grand champion steer!

This sale offers you, the investing public, this tried and proven breed, the money making kind, in volume. Put your money in the sure thing, the PROVEN ones. See you at the Braman Farm October 12.

Sincerely,

Joe Gossard
Sale Manager
